## Travel in Sophistication

Fretting over what to get for your beau this Valentine's Day? Hesitate no more with the newest range of Dom Reilly travel accessories. Encompassing a wide range of products ranging from a weekend bag, a chic all leather briefcase, to a business card case, just to name a few, this signature collection is available at the Raffles Gift Shop. Each piece is crafted in three distinct colours—midnight blue, beige and olive and is lined in a warm shade of orange, thus evoking a sense of opulence. Deeply inspired by Raffles Singapore's exquisite and charismatic history, designer Dominic Reilly, who is a former Marketing Chief for the Williams F1 Team, reasoned that the orange colour encapsulated the essence of the Raffle's Garden.

All the products from the Dom Reilly for Raffles collection are made in France's traditional leather artisan workshops, utilising quality British canvas, superior Italian leather and Milanese gunmetal grey hardware. [www.raffles.com/singapore](http://www.raffles.com/singapore)
