Aqua Expeditions

After having had great success with two luxury vessels on the Amazon, Aqua Expeditions has launched cruises on the Mekong, with the brand new vessel, the *Aqua Mekong*, making her debut on 30 September, 2014. The 62.4 metre vessel is five-star all the way, with 20 roomy suites – eight with balconies – featuring floor-to-ceiling panoramic windows, a pillow-top king size bed, a plush day bed and high speed Wi-Fi. The vessel also has an observation deck, a spa, five-star South East Asian cuisine, an outdoor pool, lounge, library and private screening room. The stunning *Aqua Mekong* will cruise the waters of the Mekong, to flooded emerald forests and bamboo stilt villages accessible only by boat, to ancient Hindu ruins, floating markets, among flocks of painted stork and spot billed pelicans and to Chinese wing tipped pagoda temples and remote Buddhist monasteries. aquaexpeditions.com
