Broaden horizons while making memories to last a lifetime on cycle rides along the Mekong riverbanks, and kayaking deep into the river's captivating tributaries. Encourage curiosity with floating village and Buddhist temples visits.

Back on board our singular river cruiser, let team building takes on tasty new meaning over hands-on classes, learning to make grilled river prawns with peanut relish and Vietnamese catfish minced with shallots, chilies and Thai basil from our menus designed by Southeast Asian culinary guru, David Thompson.

Mixing business with pleasure is in fact a winning formula. So why not take your talent to places beyond even their imaginations. This may be one of the best business investments you ever make!
