DOWN THE RIVER

Experience nature through the eyes of a world-leading conservationist with **Aqua Expeditions**, which has launched a series of trips along the Amazon and Mekong Rivers. Led by Jean-Michel Cousteau (son of famed conservationist Jacques), the intimate expeditions lift the lid on two of the planet's most diverse ecosystems. During the journeys you can expect to see pink river dolphins, three-toed sloths, capuchin monkeys, and other natural wonders.

Wellness retreat

Time to revive

Where some adventures are designed to inspire and thrill, others are altogether more sedate and reviving.

Castello del Nero's new Reconnect package, for example, is geared towards those whose holiday wish list includes mindfulness, relaxation—and quality snoozing. The program is designed to improve guests' sleep through a combination of yoga, tailored sleep-enhancing spa treatments, sleep rituals, nature immersion, and wellness-focused gastronomy. Nestled deep within the Tuscan countryside, the 12th-century castle commands extraordinary views over the surrounding vineyards and olive groves of Chianti, and is within easy reach of Florence, Siena, and Pisa.
